| STATISTICS | |
|---------------------------|----------|
| Total Park Attendance | 29,436 |
| Preventative Actions | 665 |
| Minor Medicals | 2 |
| Major Medicals | 1 |
| Rescues | 0 |
| Average Water Temperature | 72 |
| Beach Erosion | Moderate |
| Stinging Marine Life | Moderate |

General Conditions

April 2020 beach attendance set a record low with only 29,436 visitors to the beach. COVID-19 pandemic has closed all the beach parks and restricted beach access at all other public beach accesses. People were allowed to walk and exercise on the beach if they could gain access through a private beach. Vero Beach Police have been patrolling up and down the beach on their ATV's to enforce social distancing and other restrictions. Lifeguards responded to 3 medical emergencies which included 1 major medical emergency. Fortunately, there were no water rescues in the month of April keeping the total number of water rescues in 2020 to 8. Larger swells and strong currents carved out some parts of the dune along the shoreline. Many surfcasting fisherman were posted along the shoreline especially near South Beach Park. The ocean water temperature has risen to 72 degrees.

Beach Raker Inc, the subcontractor the City of Vero Beach hired to groom our beaches did an excellent job. Beach grooming ceased on April 30th due to turtle nesting season. Some patrons may start complaining about the amount of seaweed on the beach. Seaweed is a natural occurrence and

part of a healthy beach ecology. Removal of the seaweed may weaken the beach's foundation, prevent the formation of protective dunes, increase beach erosion and may damage sea turtle nests.

All swimmers are advised to pay close attention to beach condition signs and flags, swim near lifeguard towers and avoid swimming during non-guarded hours.

Areas of Progress

With help from Idea Garden, Waldo's, Minuteman Press, Coastal Technology Corporation, Hoos Architects, Mills Short Engineers, Farrow Construction, City of Vero Beach Recreation Department, and City Council, VBLA's goal of giving our lifeguards the ability to see more of the beach and react to emergencies faster by building a lifeguard tower and command center at Humiston Park is progressing. We are actively seeking a donor for the project.

Areas of Concern

Whenever beaches are closed due to large surf, sharks or other emergencies, it is strongly advised that the public stay out of the water due to the dangerous conditions or the absence of lifeguards.

Key

Park Attendance: an estimated count of park attendees to include boardwalks within each park and areas immediately north and south of each park

Preventative Actions: stopping potential incidents before they occur

Minor Medicals: a medical incident which is treated on-site by lifeguard/EMT personnel

Major Medicals: a medical incident that required Emergency Medical Services

Rescues: Any water related emergency to include rip current rescues, fatigued swimmers, surfing, kite boarding and/or boating accidents.

About VBLA

This report is furnished by the Vero Beach Lifeguard Association, a non-profit, 501C3 organization. Its mission is to promote water safety and lifeguarding in Vero Beach and the surrounding communities. Contact us at

VeroBeachLA@Yahoo.com or (908)797-8725. Visit us at www.VBLA.org.

Donations are appreciated. Monies raised are used to purchase equipment, supplies, and training for the lifeguards from the city of Vero Beach. Please send donations to: VBLA, 1351 White Heron Lane, Vero Beach, FL 32963.
